2019 Ubiquim Code Academy
Front-end Bootcamp

2014-2018 UPF
Degree in Human Resources

2011-2013 Carles Vallbona
CFGS International Trade

EXPERIENCE

UBIQUIM, Front-end Developer

MAY 2019 - JUL 2019

Full-time bootcamp, writing code in a structured environment following the agile methodologies and the "learning by doing" system. Focusing on: HTML, CSS, Javascript, Vue, Firebase and different libraries.

Developed projects:

- ☐ NYSL Soccer League Website: static website of the junior soccer league created with HTML, CSS and JavaScript for the validation of forms
- ☐ Web application tracking the Congress of the United States: web page that shows information about senators and congressmen obtained from ProPublica RestAPI. First version made with native JS and Bootstrap and the second with Vue.js.
- ☐ MG BJJ Mobile web App: created with Vue.js / Vuetify and Firebase. Shows different information of the MG team of BJJ with a chat in real time created with a Firebase Database, filters and a fully functional contact form.

Human Resources and Sales
